AROUND THE RING.
Mary had a little ring, 'twas given her by Joe,
And everywhere that Mary went that ring was sure to go.
She took the ring with her one day when she went out to tea,
Where she might show it to the girls, who numbered twenty-three;
And when the girls all saw that ring they made a great ado,
Exclaiming with one voice: "Has it at last got round to you?"

There is a wide difference between zeal and wisdom, but few reformers have discovered the fact.

Roy Cooper of Manchester and Miss Mary Margaret Franklin of Aberdeen were married last Friday at Ripley.

Owing to the cold weather, the picnic of the First M. E. Church, South, will not take place tomorrow as intended.

In the Market For a WHEAT DRILL

Then Our "New Peoria" Is What You Want

It has perfect working discs, fitted with dust proof chilled bearings, single draw bars that will not gather trash, staggered spoke wheels with 7-inch hub and 3-inch tires, continuous rear bar with truss rod to support seat and keep drill from sagging, direct pressure in rear of disc; a feature we claim will make this drill work perfectly in any land suitable for sowing grain and where other drills cannot be operated. A seat in center of drill convenient to lever is also furnished. Drop in and let us show you what this drill can do, and furnish you with the names of a score of satisfied users. One feature of our drill that puts it in a class by itself and makes it superior to all other drills on the market is the "Peoria Disc Shoe." You won't find the disc shoe on any other press drill on earth, the Peoria people have that feature cinched and they are going to hang on to it. If you want to know why we can grow more wheat to the acre after this drill than any other with the same amount of grain sown, come in and let us explain to you the "New Peoria Disc Shoe Drill."

atory**

FRANKFORT, Ky., September 26th.—The State Penitentiary here is to be converted into a reformatory, according to plans outlined in a statement issued by Daniel E. O'Sullivan, Chairman of the State Board of Prison Commissioners.

A trades school is to be established within the reformatory walls and negotiations are under way for the purchase of a farm, where all tubercular and otherwise diseased prisoners are to be kept.

It is estimated that the products of the farm will be sufficient to supply all the institutions under the control of the Prison Board.

"The Frost is on the Punkin"

This morning a light frost was reported, some persons saying that the mercury was down to 37 degrees above zero, only 5 above freezing. However, no damage is reported to crops or vegetables hereabouts.

The tobacco crop is nearly all in the barn and there is nothing Jack Frost can nip except some late vegetables.

A bumper crop of every growing thing is now assured for 1912, and the coming Thanksgiving should stand for something.

TWENTY HOBBOES

**Captured at Coal Docks and Land-
ed in Jail**

Two C. and O. Detectives and the local police bagged twenty prisoners last night, twelve hoboes at the coal docks and eight local characters. This morning Jailer Eitel had forty-five boarders for breakfast. Some drastic measures will have to be introduced to prevent the influx of these worthless characters. As it is the burden is becoming too heavy on the taxpayer in feeding and housing the vagabonds. A whipping post might be a solution of the evil that now besets us.

of Taxes on the Increased
Franchise Assess-
ment**

FRANKFORT, Ky., September 25th.—The Chesapeake & Ohio Railroad Company today paid into the State Treasury \$13,716.35, the amount of franchise tax due the State under the assessment of last year. The warrant was accepted by Auditor Bosworth and marked payment on franchise tax due. Under the assessment made this year the railroad company still owes the state \$30,276.40.

The Chesapeake & Ohio Railroad Company today filed suit in the Federal Court in this city asked for a restraining order to prevent the collection of taxes under the increased assessment. The suit is similar to those filed by the L. and N. Railroad, the Cincinnati, New Orleans and Texas Pacific Railroad and the Illinois Central.

TO ENFORCE BANKING LAWS.

State Banking Commissioner Thomas J. Smith will enforce the ruling of Attorney General Garret, that State Banks cannot own stock in other corporations. Notices of this ruling were sent to the State Banks today by the Banking Department. A reasonable time will be given banks to dispose of each holding. Many banks have a custom of allowing their cashiers a stated sum, and he in turn employs his assistants. This will not be permitted in the future by the Banking Department, and all employees must be chosen by the directors and their salaries paid by the bank. Commissioner Smith is going to enforce the banking laws of the Commonwealth and has solicited the hearty co-operation of the banks.

W. H. Taft. J. S. Sherman.

REPUBLICAN TICKET.

FOR PRESIDENT,
WILLIAM HOWARD TAFT.

FOR VICE PRESIDENT,
JAMES S. SHERMAN.

FOR CONGRESS,
HON. HARRY BAILEY.

SENATOR BRADLEY'S LEXINGTON SPEECH

It is entirely unnecessary to argue with the farmer that the price of his property depends upon a home market. When the factories are running at their full capacity their millions of laborers are dependent upon the farmer for food and they have the money with which to buy it, but the moment their wages are decreased or fail of payment the farmers' market is seriously injured or destroyed.

Mr. Taft should certainly be commended for vetoing these miserable bills.

Under Mr. Taft's administration the power of the Interstate Commerce Commission was enlarged materially in many respects, so that it now affords complete protection to the humblest shipper in the land.

At this point I beg to call your attention to the fact that when the railroads were preparing to arbitrarily increase rates, President Taft promptly but firmly told them it must not be done, and it was not done.

By way of digression, I will say that the Sherman Anti-trust bill, the Hepburn bill and the Elkins bill, which regulate the trusts and rate system of the country, were all Republican measures, the last being passed during Mr. Taft's administration.

President Taft has recommended most rigid economy by reason of which millions of dollars have been saved. The wiping out of the deficit of seventeen millions in the Post Office Department alone is a most notable feature of his administration.

Like Lincoln he favors "a Government of the people," believing like Lincoln, the people must be governed in all cases, always, however, by agents of their own selection; "a government for the people," believing like Lincoln that all government should be for the people's good; a government "by the people," believing like Lincoln, that the people should regulate and control the Government through constitutional methods such as will prevent any Department from exercising the powers of another and insure the common weal.

On his recommendation the postal savings bank bill was passed, which has resulted in bringing into circulation twenty millions of dollars heretofore hidden away in secret places, thereby increasing circulation and assisting commerce.

Mr. Taft has shown himself earnestly interested in the welfare of the workingman. At his instance the working man's compensation law, the eight-hour law and the employers liability law, have all been put on foot and some of them passed.

He has caused the institution of 940 cases for violation of the safety appliance act, some of which have been tried, resulting in the col-

lection of penalties of more than thirty-eight thousand dollars; more than 1,500 cases have been instituted for violation of the hours of service law and penalties of eight thousand dollars collected; 40 suits have been instituted for violation of the Ash Pan Act and seventeen hundred dollars penalties collected; many prosecutions have been instituted for violation of the 28-hour law and more than thirty thousand dollars of penalties collected. Through him the Miners' Bureau and the Children's Bureau were created. He has never allowed an opportunity to escape to do something for the benefit of the working man.

He has shown himself keenly alive to the educational interests of the Negro and has recognized that race by appointments to office to places of more dignity and greater remuneration than they have held heretofore.

He has prosecuted the trusts with unsparing hand, the Sherman law having been fully and fearlessly enforced. In the first three years of his administration twenty-two bills in equity have been filed and forty-five indictments, while during Mr. Roosevelt's administration of seven years there were eighteen bills filed in equity and twenty-five indictments found. No wonder the trusts are against him.

Taft is not an experiment.

Free trade and free soup houses go together

Don't vote for Wilson and the empty dinner pail.

With manufacturers protected from competition with the cheap labor of Europe and Asia the American workman can buy abundantly from the farmer at good prices.

"Those who study books know how things ought to be; those who study men, know how things are," says Colton in his Lacon. The presidential candidates furnish the type for each class.

The press reports that while he was president of Princeton University, Woodrow Wilson remarked: "I consider the strike breaker the highest type of a hero." This is the kind of a progressive he is. How does Bryan like it, says a Labor Journal.

John W. Langley now fully appreciates the meaning of real opposition. The Democratic candidate and the Progressive candidate are after his scalp and if he is not careful "foxy John" will finish where Caleb Powers is going to finish—in the garden.—Louisville Herald.

Political Pickings

Charleston News and Courier: The most important man in the world, we suppose, is Mr. Archbold the week before election.

Boston Advertiser: The President will be the chief rooter for the Red Sox at the world's series.

Roosevelt's Confession of Faith, better known as the Progressive Platform, is fairly complete, including, as it does, the Socialist Party platform, Fox's Book of Martyrs, Mother Shipton's Prophecies, Coin's Financial School and the Ravings of John McCullough. But there are a few items of "Social justice" that were overlooked and we beg to call attention to them, as follows: Life imprisonment for the man who rocks the boat. Capital punishment for the man who says: "I told you so."

Free fish for disabled sea lions. Certified peanuts for baseball fans. The apprehension at any cost of the felon who smote Billy Patterson. The appointment of a commission for the restoration of Charley Ross. Manicure sets for indigent Digger Indians. The equipment of an expedition for the relief of pianola indicted flat dwellers.

TAFT THE MAN FOR THE CRISIS

The President and the Panama International Issue.

VALUE OF HIS DIPLOMACY

Not Since the Civil War Have the American People Had Greater Reason to Congratulate Themselves on Having the Right Man in the Right Place at the Vital Moment.

The American people never since 1860 have had greater reason to congratulate themselves on having the right man in the right place than they have in the fact that William Howard Taft is president of the United States. When Mr. Taft signed the Panama canal bill he upheld with a majesty worthy of the cause the right of the American people to attend to their own affairs at the same time that he confronted a most difficult international issue for which he was in no wise responsible.

It is easy to suppose what Mr. Taft's predecessor would have done under similar conditions. One can hear the bang and whiz and sputter, like the start of a wireless message across the Atlantic, hurrying frantic defiance here and there and everywhere getting everybody mad, making foreign resentment more acute than before and an amiable adjustment well nigh impossible.

President Taft's high standing as diplomat and statesman, his well known reputation for calm and dignified reasoning, his mastery of the principles of international law, of the obligation of treaties and the power of an independent people to supersede a treaty when it is found to infringe upon their national rights give assurance that the crisis, affecting as it does the honor of the nation and its fidelity to its solemn engagements, will be dealt with in a manner befitting the American people and satisfactory to the civilized world.

Foreign nations know that President Taft can be trusted to do what is fair and just, that his patriotism is as broad as it is pure and that no hunger for spread eagle notoriety will vitiate his judgment. And every American, whatever his party, knows in his heart of hearts that the national interests, the national honor, the national future—so far as he shall be permitted to control that future—are safe in the hands of William Howard Taft.

TAFT GOOD TIMES

A Good Deal More Substantial Than Wilson Promises.

There was an old song, a favorite in the days gone by, with the refrain, "Hard times come again no more!" Were it not for the dark cloud of Democratic free trade hovering above the horizon and the possibility of Wilson for president, with a cabinet of mossbacks from the south, with their heels on the cabinet table and telling each other how much better things were "before the war," Americans might be singing that refrain with zest and glee today, for from all parts of the Union comes assurance of better times than for years past, of pressing demands for goods of all kinds, abundant employment and active and profitable trade. The large cities are thronged with buyers, and there is plenty of evidence that storekeepers, big and small, in city and village and at the crossroads, have money to spend—and mean to spend it.

How different four years ago! The country was still in the doldrums—not yet emerged from the Roosevelt panic of 1907. The nation was looking forward with hope and faith to the election of President Taft, then already recognized as one of the world's greatest statesmen, sane, sane, broad minded, with an intellectual grasp equal to the mighty task before him and an unselfish devotion to the welfare of all of his fellow citizens.

The nation's faith and hope in President Taft were not misplaced. Gradually and surely the country has come out of distrust and despair into the realization and enjoyment of ever growing prosperity. Business has recovered confidence, labor finds profitable employment, and in some parts the demand for labor at good wages is greater than the supply.

President Taft has made good. Hard times have gone, never to return—provided Taft is re-elected and allowed to give the country four years more of sanity, safety and security. The frantic efforts of his predecessor to get a chance to give the country another taste of 1907 excite no alarm—the American memory is not short enough for that. But another generation has grown to manhood and the ballot since the last calamitous experience of Democratic law tariff in 1894, and specious and illusive free trade arguments are appealing to ears that never heard the term before.

There is every reason to believe, however, that the sunshine of Taft's prosperity will clear the beclouded sky, dissipate the mist of Wilson free trade, and enable the younger voters to perceive, as their elders know by experience, the folly of exchanging good times for conditions that in the past have brought only business collapse and general hardship and depression for everybody and loss of opportunity.

WILSON ON LINCOLN.

Charles D. Hilles, chairman of the Republican national committee, has issued the following:

At this time, when the negroes throughout the United States are celebrating in various ways the fiftieth anniversary of the first proclamation of emancipation and when the Democratic candidate for the presidency, Woodrow Wilson, is appealing to the people of the western states to support him, it is fitting that the chairman of the political committee organized to further the cause of the candidates of the Republican party for president and vice president should call attention to an expression of opinion by Governor Wilson at a period in his career when possibly he never dreamed of being a candidate for a political office.

That expression of opinion was made in his capacity of historian, and it adds to the cumulative testimony that he was until he became a candidate and that he is now un-American in his views of public questions and at heart contemptuous of more than one class of American citizens and out of sympathy with their aims, their purposes and their beliefs.

It was on Sept. 22, 1862, that President Lincoln issued a proclamation giving formal notice that unless the southern states returned to their allegiance to the Union within a hundred days he would declare the slaves within their borders free, and it was on the 1st of January, 1863, following, that a definite proclamation of emancipation was issued. Of this crowning event of the career of the immortal Lincoln, Woodrow Wilson says in his "History of the American People," written forty years afterward:

"The proclamation when it came was no law, but only his (Lincoln's) deliberate declaration of policy for himself and for his party, and changed, as he meant that it should change, the whole air of the struggle and of politics as well."

It is safe to say that not even the most radical unreconstructed southern man would attribute to Lincoln this motive which it remained for the historian Woodrow Wilson alone to discover, that Lincoln abolished slavery to further his own political ambitions and those of his political party. The statement adds proof to much already at hand that Woodrow Wilson forty years after the war was and presumably still is devoid of sympathy for the motive and results of the civil war.

The quotation from the Democratic candidate's writings proves that he is not a reliable historian nor a fair commentator. It goes to show what has been often asserted, that Governor Wilson is not at heart an admirer of or a believer in American institutions, as his other writings and speeches show that he is not a eulogist of American industries nor a defender of American labor. He continuously slanders millions of adopted citizens from abroad who have become good Americans. He sneers at trade unions, and apparently he would if he could close every American mill and buy in foreign markets, because in the first place he is an aristocrat born and bred and because he wants the American people to buy where they can buy the cheapest.

Everything that can be learned about Governor Wilson from his writings, from his speeches and from his manner of living indicate that he is not the type of man who can successfully appeal for the support of the American people.

MR. OTIS' DISGUST.

He Tells Why He Has Abandoned Third Party Movement.

Mr. Ralph C. Otis of Chicago seems to be a citizen of a type widely extant in the country today, taking a newer and a larger interest in the duties of citizenship and earnestly striving for bettering conditions of government. Like many another he was led away by the cant and the phrasemonging of the third party promoters and made to believe that civic salvation only was to be obtained by following in the wake of the third term.

But Mr. Otis, like the average intelligent citizen, could not stand for all that was put up to him. "Those fellows," he declares bluntly, referring to the third party bosses, "are around denouncing every one and calling everybody a 'crook' who does not agree with them." He declares that he will have nothing further to do with the bull moose movement.

Inasmuch as Mr. Otis was president of the original Roosevelt league in Chicago and chairman of the new party national convention committee his defection from the cause is out of the ordinary.

His protest is that which every level headed man, presuming that he is not animated by personal or selfish reasons, will make when he has had an opportunity closely to observe the tactics and the hypocrisy of the self-seekers who are lending, directing and financing—especially financing—the new party.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound in your ears, and when it is closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

CASTIGATION

Given Roosevelt For Calling President Taft a Thief

Washington Evening Star Represents Insult to Nation's Chief

WASHINGTON, September 24th.—A remarkable editorial castigation is administered to Colonel Theodore Roosevelt this evening by The Washington Star—a castigation such as perhaps no other ex-President ever was subjected to by a prominent newspaper. A striking cartoon, depicting Uncle Sam as weeping because a man who has been President would utter such language as Colonel Roosevelt uttered in Missouri yesterday, accompanies the editorial. The editorial is based on this exclamation of Colonel Roosevelt, called forth by seeing a Taft banner at Joplin, Mo.

"Any man who supports the receiver of stolen goods stands on a level with the receiver of the stolen goods. He is a dishonest man and is unfit to associate with honest men."

Commenting on this The Washington Star says:

"If Alexander Berkman or Emma Goldman or William D. Haywood or any other of the radicals, who are occasionally in evidence in this country as exponents of extreme policies as radicalism and anti-government, were to utter some of the things that Theodore Roosevelt emits from time to time upon the stump, they would be denounced immediately by the country and their punishment demanded. But because the man who

"PROSPERITY

Must Continue" and Nation-Wide Campaign Will Be Made For Taft

Business Men of the Country Will Be Appealed to to Prevent Commercial Ruin

Cincinnati Times-Star.

New York, September 25th.—When President Taft arrived in New York late yesterday afternoon Mr. Fred A. Geier of Cincinnati, President of the Cincinnati Milling Machine Company and Vice President of the National Machine Tool Builders' Association of the United States, accompanied him.

On the way from Washington to New York on the President's private car, one of the most important conferences of the present campaign was held, a conference which promises results of national interest. Mr. J. G. Schmidlapp of Cincinnati and Carmi Thompson, the latter the Secretary to the President, were parties to it. But of the great movement which was there born, Mr. Geier is the originator. It contemplates a country-wide Taft organization, with Cincinnati as its starting point.

Gratitude is the mainspring of Mr. Geier's action. But for the President's courageous veto of the Underwood steel bill, passed by the last Congress, the machine tool industry of the United States would have been wiped out, and the thousands of workmen whom it has maintained in comfort would have been thrown out of employment.

In order to express to President Taft his thanks for saving this great American industry, Mr. Geier journeyed to Washington yesterday. He took lunch at the White House as the guest of Mr. Taft. But Mr. Geier was anxious to do more than to give mere verbal expression to his appreciation. He had formulated a plan of more practical gratitude, and he wished to talk it over with the President. The opportunity being lacking in Washington, the President invited his guest to accompany him to New York that they might talk it over en route. On the way to the metropolis Mr. Geier unfolded the details of his plan.

Manufacturers and business men and their employees, whose welfare depends on the protective principle of the American tariff system, are to organize all over the country and rally to the support of President Taft and the policy for which he stands.

Cincinnati will be the headquarters of the movement. Mr. Geier left for Cincinnati last night, and upon his arrival there active steps will at once be taken to carry out the ideas already evolved. Leading business men in

not only that city, but of the country will interest themselves in the movement. Many of them have already been apprised of some of its details, and their enthusiastic support is assured. From Cincinnati the movement is to spread over the entire country and the business world will be stirred to action. Every line of industry that is dependent for its life and maintenance on the principle that there should be a measure of protection the equivalent to the difference between cost of production here and abroad will join the movement. Thousands of employers and hundreds of thousands of employees will be actively enrolled.

NO FLOWERS

Will Be Permitted at Funerals in Danbury Church

A movement has just been started by the Rev. Dr. Walter J. Shanley, pastor of St. Peter's Catholic Church in Danbury, Conn., which has been endorsed by the leading Catholic clergy of that city cutting out the custom of sending flowers to funerals.

Dr. Shanley not only issued an order prohibiting the carrying of flowers into the Church, but has announced that in the future no flowers would be admitted into any Catholic Cemetery over which he has any jurisdiction.

EIGHT SCHOOLS CLOSE

Large Number of Cases of Diphtheria in Nicholas County

With eight schools in the Western section Nicholas county closed and a large number of cases of diphtheria in that section the epidemic continues to prevail, but every effort is being made by the health authorities to eradicate the disease.

Five cases of the disease are reported in one family, with three in another. No cases have been reported this side of Bartterville. At Barefoot \$200 worth of antitoxin is said to have been used already.

Three deaths are said to have occurred from the disease since the breaking out of the epidemic.

I used Doan's Kidney Pills and they stopped the trouble and my kidneys became strong."

To Whom This May Concern:
